

AkyPak® Advanced Large 1200x800

Pallet-to-lid Hook

To save space and secure the lid upright during loading and unloading.

Lightweight, Space-saving Container

Everything in this container is designed with **space optimization in mind!** From its hook feature to secure the lid upright during loading and unloading, thus **saving warehouse floor space**, to its ability to **maximize fill rate** of curtainside trucks and trailers, saving on labour costs and on number of trips for delivery. When empty, the foldable sleeve perfectly fits in between the pallet base and the lid, allowing for the safe stacking of up to 11 empty containers, **substantially optimizing storage space**.

The AkyPak® Advance range is returned in full sets of neatly stacked containers that are easily handled by AGVs and traditional forklifts, **saving space, truckloads, and cost of labour**.

Good Weight to Strength Ratio

Shock Resistant

High Lifespan
(up to 10 years)

Stackable & Foldable

Water Protective

100% Recyclable

Technical Specifications

External Dimensions (mm)	1235x830x900 ¹
Internal Dimensions (mm)	1178x772x720
Weight of the Sleeve (kg)	9,5kg
Weight of Pallet (kg)	9,7kg
Weight of the Lid (kg)	5,6kg
Box Volume (L)	655 Litres
Material	HDPE / PP
Sleeve Quality	3000g/m ²

¹Other heights available on request.

Load Specifications

Max Load per Box (kg)	500kg*
Container Stack Empty Return	11
Static (kg)	1000kg*
Dynamic	500kg*

*Depending on the density of goods being packed in the container. Contact us for more information.

Space Optimization

Folded height (mm)	236 (+ 216 / container stacked)
--------------------	---------------------------------

Return ratio up to 4.3 depending on the height of the sleeve and the type of truck for transportation.

Sustainability at the core

Designed and manufactured according to Circular Economy principles our extensive range of AkyPak Containers are a key element to reduce dependency on single-use packaging materials and to curb CO₂ emissions from supply chains. They are fully recyclable at the end of their useful life, producing zero waste.
